Minutes

- 1 The Minutes of the Board meeting held 7 November 2023 were approved.
- 2 The Board discussed the impact of changes the Council had made to the fence line in the north east corner of Collings Park in the light of correspondence between local councillors and the chair of the management committee. It was **resolved** that the Trust writes to all three councillors to register the our disquiet and express our concerns about the changes by explaining their likely detrimental impact and seeking (a) the immediate reinstatement of the breeches that have been made in the wildlife corridor to facilitate the changes to the fence line and (b) consultation between the Trust and the Council over any future changes proposed by the Council to the Asset of Community Value area (the Collings Park sports pitch area owned by the Council).
